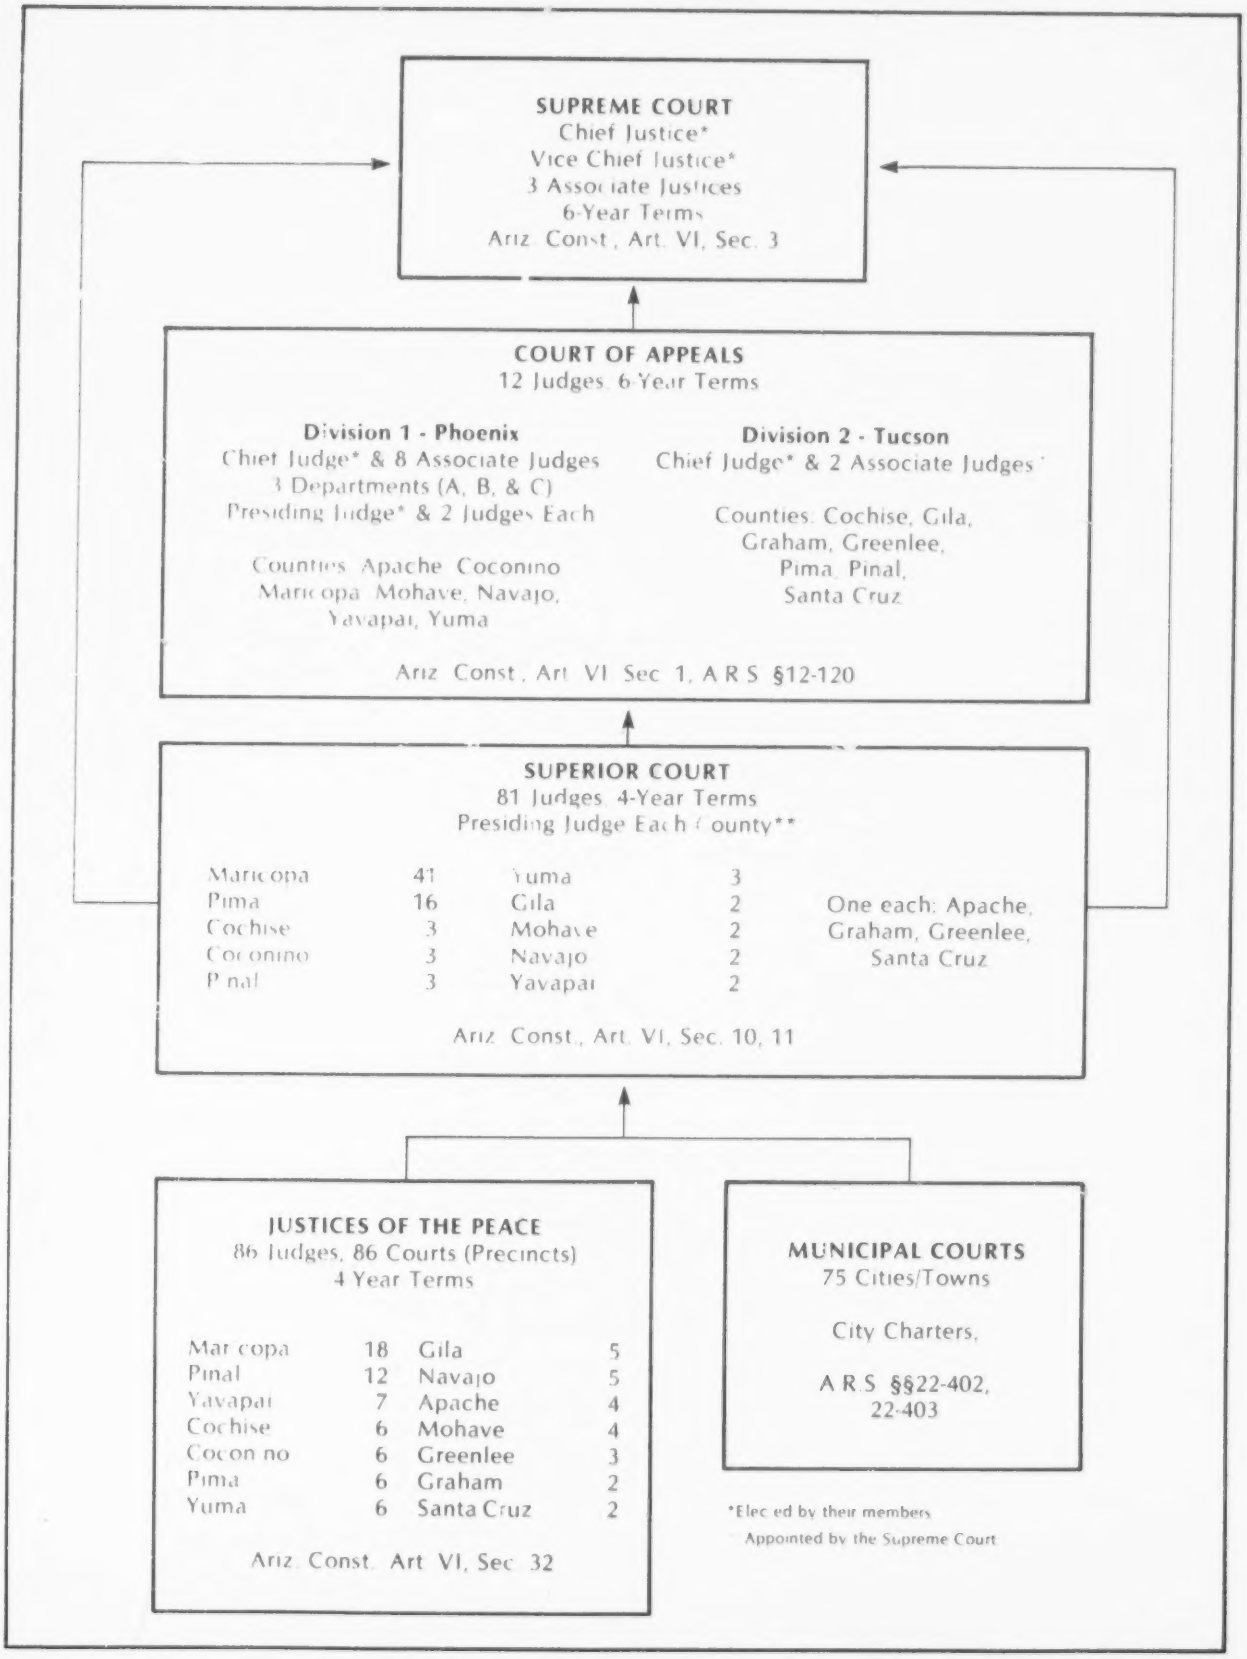
ORGANIZATIONAL CHART—THE ARIZONA JUDICIARY



The Judicial Branch of Government

"The judicial power shall be vested in an integrated judicial department consisting of a supreme court, such intermediate appellate courts as may be provided by law, a superior court, such courts inferior to the superior court as may be provided by law, and justice courts."

Arizona Constitution, Article VI, Sec. 1

THE SUPREME COURT

The Arizona Supreme Court consists of five justices. The regular term of office is six years. The Supreme Court has administrative supervision over all the courts of the state and the Chief Justice has the authority to exercise that supervision. The jurisdiction of the Court is provided in Article VI, Section 5 of the Arizona Constitution and includes appellate jurisdiction, the issuance of extraordinary writs and the power to make rules relative to all procedural matters in any court. Decisions of the Court of Appeals may be reviewed at the discretion of the Supreme Court when a litigant files a Petition for Review.

In addition to law clerks and secretarial and clerical staff, the Court appoints the Administrative Director of the Courts, the Clerk of the Supreme Court, and a central staff of attorneys. All employees serve at the pleasure of the Court.

COURT OF APPEALS

The Court of Appeals consists of two divisions. Division One, with nine judges, is located in Phoenix; and Division Two, with three judges, sits in Tucson. The Court has appellate jurisdiction to determine all matters properly appealed from the Superior Court. In criminal cases, however, where the sentence of death or life imprisonment has actually been imposed, the appeal is directly to the Arizona Supreme Court.

The geographical jurisdiction of Division One covers appeals from the Superior Court in the counties of Apache, Coconino, Maricopa, Mohave, Navajo, Yavapai, and Yuma. Division One also has statewide responsibility for reviewing decisions of the Industrial Commission and unemployment compensation appeals from the Department of Economic Security.

Division Two receives its cases from the Superior Court in the counties of Cochise, Gila, Graham, Greenlee, Pima, Pinal, and Santa Cruz.

SUPERIOR COURT

At the close of 1981, the Superior Court consisted of 81 judges sitting in 14 counties. The Superior Court is a trial court of general jurisdiction and is empowered to hear cases of equity and law which involve title to or possession of real property, civil cases where the claim for relief amounts to $2,500 or more; felony prosecutions and misdemeanors not otherwise provided for by law; probate matters; and cases involving dissolution or annulment of marriage. The Superior Court has concurrent jurisdiction with the Justice of the Peace Court over civil claims between $500 and $2,500.

In counties with three or more superior court judges, the presiding judge may appoint court commissioners to perform such duties as may be provided by law or Supreme Court rules. Commissioners usually determine matters where a default has been entered against a party and may also preside at the initial appearance of a defendant charged with a crime.

Each county has a Superior Court Clerk who is elected at the general election. The responsibilities of the Clerk's office are diversified and include the maintenance of official court case files; certification of documents; collection of fees; and issuance of summonses, subpoenas, and marriage licenses. The Clerk serves as jury commissioner in all counties except Maricopa and Pima, where a separate commissioner is appointed.

Probation departments are also operated under the supervision of the Superior Court.

JUSTICE OF THE PEACE AND MUNICIPAL COURTS

Statewide there are 86 Justices of the Peace sitting in the same number of precincts. These judges are elected at the general election by the voters in the precinct and the regular term of office is four years.

Municipal Courts are mandated by state law in each incorporated city or town; there are 75 such courts. Municipal judges are appointed by city or town councils.

These courts have jurisdiction to hear class 1, 2, and 3 misdemeanor cases. The Justice of the Peace may also conduct preliminary examinations on felony complaints. Municipal courts are empowered to hear matters arising out of violations of city or town ordinances. Virtually all traffic violation cases are filed in the Justice of the Peace or Municipal Courts.

The Justice of the Peace Courts also have civil jurisdiction over lawsuits involving less than $2,500.

General Introduction

For the third year detailed caseload financial, and personnel information is presented by the Arizona Supreme Court in this separate volume, *The Arizona Courts' 1981 Caseload, Financial, and Personnel Report*. This report provides both statewide summary and detailed individual court unit information. Its value as a supplement to the *1981 Annual Judicial Report* is to persons and agencies who are interested in or involved with budgeting, planning, and administration for the court systems within Arizona.

This is the fourth year in which caseload statistical data has been published in the same format. It is, therefore, possible for courts to use caseload information from this and previous reports to determine short-term trends in their caseloads. Such information is of value when budgets are considered and in order to plan for the future needs of the court system.

REPORT FORMAT

This report contains sections on: statewide summary information; appellate courts; superior courts; superior court probation; justice of the peace courts; municipal courts; and court receipts. For easy reference, each court section is indicated by the appropriate heading on the upper outside corner of the page.

The following introductory sections have been included to facilitate a better understanding of the data presented herein. These general statements are intended only as an overview of the data presented. Particular attention should be paid to the narrative statements and definitions at the beginning of each section and the footnotes applicable to various statistics.

CASELOAD STATISTICS

The caseload statistics presented herein have been compiled from the monthly statistical reports submitted to the Supreme Court by the individual appellate, superior, justice of the peace, and municipal courts of the state. Virtually all caseload data reported herein is complete. Incomplete or inconsistent information, where detected, has been appropriately footnoted in the specific court report where the explanation is applicable. While the statistics are checked for mathematical accuracy, they are unaudited.

As a result of the State Legislature's passage of House Bill 2210, in July, 1981, it was necessary to change the statistical caseload reports for justice of the peace courts. This legislation requires that the annual salary of each justice of the peace be computed according to judicial productivity credits which are based on case filing statistics compiled by the Supreme Court. To maintain consistent statistics for the limited jurisdiction courts, both the justice and municipal courts' reports were changed to coincide with the requirements of the legislation. The most significant statistical difference in the reports is the change from counting defendants in traffic and criminal cases to counting complaint filings. As a result of this mid-year change, the 1981 caseload statistics for justice and municipal courts reflect a mix of both "defendant" and "filing" counts. Absent other legislative changes, the 1982 report will reflect a single counting method.

The Thirty-Fourth Arizona Legislature enacted new legislation regarding domestic violence and this year statistics related to domestic violence are being reported for the first time. Charts showing caseload statistics for superior, justice, and municipal courts have a notation specifying the number of petitions filed for an Order of Protection and the number of requests received for hearings.

FINANCIAL INFORMATION

The financial information for superior and justice courts which is published in this report is based on a survey of the courts conducted during October, 1981. Supreme Court personnel have worked to obtain the most complete and accurate information possible. However, the financial data presented herein is unaudited and, therefore, is dependent on the reporting accuracy of the counties and cities participating in the survey. An effort was made to identify all costs of court operations where the cost is directly attributable to the individual court's budget.

Financial information for the municipal courts has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget dollars appropriated and expended were available; therefore, these figures are not broken down into sub-categories.

Following are definitions for the categories used in this report. They are included to provide a better understanding of the financial information presented.

DIRECT EXPENDITURES AND APPROPRIATIONS — those funds appropriated directly to the court by the immediate funding authority (appellate courts — state legislature; superior courts and justice courts — counties; municipal courts — cities/towns).

Personal Services - amounts for salaries and wages for all personnel.

Fringe Benefits - amounts for employer's cost of FICA, insurance, retirement contributions, etc.

Operating Expenses - amounts for utilities, telephone, postage, insurance, rent, building maintenance, office supplies, and office equipment maintenance.

Travel and Transportation - amounts for personnel mileage, per diem, and travel

Professional Services - amounts for court reporter costs, juries, attorney fees for indigent defendants, and mental institution charges

Capital Expenses - amounts for purchases valued at over $100

INDIRECT EXPENDITURES AND APPROPRIATIONS — those expenses attributable to the court but which are included in other departments' or agencies' budgets

Fringe Benefits - amounts for employer's cost of FICA, insurance, and retirement contributions not directly budgeted to the court

Support Services - amounts for data processing, maintenance, accounting, payroll, law library, and building repair not directly budgeted to the court

FEDERAL FUNDS — amounts received through such sources as C.E.T.A., federal revenue sharing, anti-recession funding, LEAA grants, Title IV child support, etc.

STATE FUNDS — amounts charged to state funds, other than Supreme Court programs such as State Aid to Probation and Family Counseling.

PERSONNEL INFORMATION

The personnel information contained in this report is based on a survey of the staffing levels of the Arizona judiciary on October 1, 1981. Because of the vast number of job titles encountered both within and between the different levels of courts, broad general position groupings were developed to publish the information in a reportable format. Personnel definitions which detail the various types of positions included within each grouping are noted at the beginning of each trial court section of this report.

Statewide Summary Information

The following tables reflect the caseload, financial and personnel information of the Arizona judiciary summarized on a statewide basis. Caseload statistics are presented on a summary basis by court level, while the financial and personnel information presented is summarized on a statewide, all courts basis. These statewide summary tables also appear at the beginning of their appropriate sections of the report, along with narrative analyses and explanations of the data presented.

Statewide Personnel Information

The table below reflects a statewide summary of all court personnel as of October 1, 1981. This information was reported by the individual courts in response to a personnel survey conducted by the Supreme Court. Personnel information for individual courts can be found in the appropriate court level section of this report.

The 1981 survey attempted to obtain the most accurate information possible regarding the staffing levels of the various courts throughout Arizona. Therefore, personnel have been identified as being full-time (F.T.) or part-time (P.T.) employees in the table below.

The superior court employs approximately 68% of the full-time and 28% of the part-time court personnel within the Arizona judiciary. Justice courts employ 13% and municipal courts employ 14% of the full-time court employees in the state. Appellate courts (Supreme Court and Court of Appeals) presently account for 4.8% of the workforce.

The most significant change since last year's survey has been the marked decrease in part-time workers in the state. A total of 316 part-time workers were reported statewide in the 1980 survey while 197 part-time workers were reported in the 1981 survey (a 37.7% decrease). This decrease is probably related to the demise of the Comprehensive Employment Training Act (CETA) which provided federal money to counties. The CETA money was used to fund part-time employees.

The total number of persons working full-time in the Arizona judicial system has increased from 2,537 in 1980 to 2,647 in 1981, a 4.3% increase.

Statewide Judicial Expenditures

The financial information shown below reflects costs of the Arizona judiciary as identified by the financial survey of courts for fiscal year 1980-81. This chart summarizes the statewide financial tables for the various courts in Arizona. Financial information for individual court units can be found in the appropriate court level section of this report.

In 1980-81, the superior court accounted for 70.3% of the expenditures made for court services in Arizona. Municipal courts expended 13.2% of the court funds and 8.8% of the total went to justice courts. Appellate courts in the state accounted for 7.7% of the statewide expenditures. The greatest share of responsibility for funding Arizona's courts (73.9%) fell upon the counties. State funds provided 10.3% of the statewide total and local funds supported 13.2%. Federal funding provided for 2.6% of the identified statewide judicial expenditures during 1980-81.

Statewide Financial Information
All Courts

The table below represents specific line item expenditures for fiscal year 1980-81 and appropriated monies for fiscal year 1981-82. This information was compiled from the Supreme Court's financial survey of Arizona courts which was conducted in October 1981. Definitions concerning the types of expenditures included in the categories listed in the table can be found in the General Introduction to the Caseload, Financial, and Personnel Information section on page 5.

In order to accomodate comparisons, the statewide financial information is provided for each of the court levels comprising the Arizona judiciary. Figures for the municipal courts were obtained from the Arizona League of Cities and Towns and were available only as total expenditures and appropriations. These figures have been included in the personal services category.

The two largest individual 1980-81 expenditure categories for the Arizona judiciary were salaries and professional services. The latter includes such items as jury fees and attorneys' fees for indigent defendants at the superior court level.

Supreme Court

CASE ACTIVITY

Case filings in the Supreme Court increased from 1,051 matters in 1980 to 1,083 matters in 1981. The Court also continued to transfer in cases from the Court of Appeals. The Court was able to meet its workload by terminating 1,133 matters during the year. The total cases pending at year-end increased slightly from 181 pending in 1980 to 191 pending in 1981.

As shown in the pie chart, petitions for review constitute the largest percentage (56%) of the total number of matters filed in the Court during 1981. The remainder of the Court's caseload is divided among special actions, criminal, state bar, and other matters.

The general trend of case filings in the Supreme Court appears to have stabilized during recent years. However, minor fluctuations occurred in specific case categories within the total caseload in 1981. *Habeas Corpus* petitions showed the largest change by increasing 52% from 27 cases in 1980 to 41 cases in 1981. The largest category of cases, petitions for review, reflected an increase of 8.6%, rising from 559 matters in 1980 to 607 matters in 1981.

Several categories also showed decreases in 1981. The largest reduction occurred in State Bar disciplinary matters which decreased 14.4% from 104 filings in 1980 to 89 filings in 1981. Special actions and direct criminal appeals also showed slight declines during the year.

The Supreme Court transferred 60 cases, primarily civil and criminal actions, from the Court of Appeals, Division One, to its own calendar. In the past five years, the Supreme Court has accepted transfer of an average of 96 cases per year. This transfer of cases has been deemed necessary to assist the Court of Appeals with its increasing caseload backlog.

FINANCIAL INFORMATION

Financial administration of the Supreme Court's operating budget is the responsibility of the Office of the Administrative Director. In addition, the Administrative Director's office fiscally administers state appropriations to provide for:

- One-half of all superior court judges' salaries and related costs
- Medical Malpractice Review Panels
- Commission on Appellate and Trial Court Appointments
- Commission on Judicial Qualifications
- Family Counseling Programs
- State Aid for Probation Services
- Foster Care Review Boards
- Judicial Education

Court of Appeals—Division One

CASE ACTIVITY

During 1981 Division One received a record number of case filings. A total of 1,718 new cases were filed in the court during the year. This represents a 13.8% increase in filings between 1980 and 1981. Similarly, cases pending in the court at year-end jumped 20% in 1981 over the 1980 level, rising from 1,289 to 1,546 cases.

The most significant factor in the overall increase in filings was the growth in criminal filings during 1981. Between 1980 and 1981 criminal filings increased from 546 to 712, a 30.4% increase. This reverses a four-year trend of decreasing criminal case appeals. Civil case filings continued their steady growth trend of recent years increasing 7.3% from 537 matters in 1980 to 576 matters in 1981. Over the past ten years, civil filings have risen nearly 96% from 294 cases filed in 1972 to 575 cases filed in 1981. There has been an average increase in civil case filings of 9.6% each year since 1972. It appears likely that this trend will continue. Industrial Commission cases also increased from 1980 to 1981 growing from 190 to 221 case filings, up 16%.

In contrast to the rise in filings of criminal and civil appeals during the past year, unemployment insurance and juvenile appeal filings in Division One decreased during 1981. Unemployment insurance matters declined 15.3% during the year from 144 filings in 1980 to 122 filings in 1981. Juvenile appeal filings declined from 29 cases in 1980 to 15 cases in 1981.

Termination of cases again reached near-record proportions during 1981. Three out of the four major case categories reflected increases in the number of terminations recorded during 1981. For example, the number of civil matters closed increased 11.5% from 451 terminations in 1980 to 503 terminations in 1981. Terminations also went up slightly in criminal cases, increasing from 528 cases to 544 cases between the two years (a 3% change). Closures on unemployment insurance appeals increased 46% from 108 terminations in 1980 to 158 terminations in 1981. Additionally, the Supreme Court accepted transfer of a total of 58 matters from Division One to assist in reducing the Court of Appeals' workload.

As shown in the Total Filing and Termination Activity chart and graph, the year-end pending total for the court grew 19.9% from 1,289 cases in 1980 to 1,546 cases in 1981. This increase in year-end pending is attributable in large part to the increase in criminal filings. Due to the limited resources of the court and the priority given to criminal appeals, non-criminal matters are frequently delayed which results in more cases pending. In response to this long-standing situation, the 1981 Legislature approved the addition of a fourth, three-judge panel for the court to become effective in July 1982.

Sandra D. O'Connor Appointed to U.S. Supreme Court

Court of Appeals—Division Two

CASE ACTIVITY

The total number of case filings in Division Two of the Court of Appeals increased during 1981. The court received 716 new matters which reflected a 2% increase over the 702 matters received in 1980. The total number of cases terminated by the court also increased from the previous year rising 6.8%. During 1981 the court terminated 675 matters compared with 632 matters terminated in 1980. Despite the increased termination activity, the court's year-end pending caseload increased from 288 cases in 1980 to 329 cases in 1981.

During 1981, increases in filings occurred in the major case categories: civil and criminal. Civil cases reflected the largest filing increase in the court growing 18.3%, from 208 matters filed in 1980 to 246 matters filed in 1981. Criminal cases also increased from 280 cases filed in 1980 to 286 cases in 1981.

The termination of civil matters increased by 19.1% when compared to the previous year, rising from 188 terminations in 1980 to 224 terminations in 1981. Similarly, criminal case terminations increased from 231 cases in 1980 to 270 cases terminated in 1981, a 16.9% rise. Juvenile terminations increased slightly in 1981, going from 18 cases in 1980 to 20 cases in 1981.

The year-end pending total in 1981 (329 cases) increased approximately 14.2% over the 1980 level. This pending count should be closely monitored in future years; if the pending figure continues to escalate at this rate, the court should determine appropriate action to address the problem.

Court of Appeals—Trend Analysis

Two significant trends have been experienced by the Court of Appeals in recent years. First, since 1977 the court has seen a change in the type of caseload which it must handle. Second, the overall growth in case filings has continued virtually every year since the court's creation in 1965.

As shown in the pie charts to the right, the percentage of civil cases in the total caseload has increased from 29.4% in 1977 to 33.7% in 1981. Criminal cases decreased during the same period, from 50.2% of the caseload in 1977 to 43.8% of the caseload in 1981. Additionally, during the 1979 legislative session, a new statute authorizing direct appeal of unemployment insurance cases from the State Department of Economic Security to the Court of Appeals was enacted. Division One of the court receives all of these appeals which account for 5% of the current caseload. Therefore, not only have the number of case filings increased, but the types of cases filed have broadened as well.

The bar charts below reflect the change in criminal and civil filings in the Court of Appeals during the past five years. Criminal filings were decreasing until 1981 when a major increase in activity was recorded. Between 1980 and 1981, criminal filings increased 22.1%. If this trend continues in 1982, it would suggest several possible explanations including the impact of the new criminal code, policy changes in the County Attorneys' offices, and increasing terminations at the superior court level. Civil case filings have shown a steady increase during the five-year period and this is likely to continue.

CASELOAD STATISTICS

INTRODUCTION

The caseload statistics contained on the following pages are based on the case activity data reported monthly by each superior court to the Arizona Supreme Court. The statistics are presented on both an individual county basis and a statewide summary basis—by county and by case type. Although most court caseload statistics reported herein are complete, some statistical information was not available for reporting purposes. Such omissions are noted on the applicable charts.

This 1981 report represents the fourth year in which the current superior court statistical reporting forms have been used by the Supreme Court. The use of these forms has resulted in more uniform and detailed caseload data than was available prior to 1978. This consistency in the data makes it possible to analyze the recent trends of caseloads in the superior court.

Both the superior court and the superior court probation department in each county have reported statistics on the disposition of criminal defendants who were found guilty. These two sets of figures do not coincide. Some of the variance is related to the fact that the probation department keeps sentencing statistics only on those individuals who are referred to the probation department prior to sentencing. Since not all defendants who are sentenced by the superior court are referred to the probation department prior to sentencing, the number of offenders actually sentenced may be greater than the number reported by the probation department. Another factor contributing to the variance may be the inability of the reporting entities to count the dispositions in accordance with Supreme Court instructions. The latter situation will be addressed during 1982.

The case activity charts on the following pages contain categories entitled "transferred in" and "transfer out". Although these categories are included primarily to report the actual transfer of cases or defendants between counties, the categories may also be employed to accomplish statistical adjustments of discovered reporting inaccuracies. These inaccuracies are usually detected by court personnel during physical inventories of pending caseloads. In instances where physical inventory adjustments are made, the total yearly adjustments have been published as reported and appropriately footnoted.

The only major omissions in the 1981 caseload statistics are the adoption and juvenile dependency filing statistics from Maricopa County. For the first time, Maricopa Superior Court was able to provide termination statistics for these categories and these numbers have been footnoted on the appropriate charts. However, since complete caseflow statistics were not available, the Maricopa County figures have not been included in any statewide summaries or totals. Due to the size of the Maricopa caseload, these omissions have a significant impact on the statistical categories.

1981 Caseload Activity

The superior court reported a slight decrease in filings for 1981. Total filings throughout the state decreased 0.5% from 98,571 filings in 1980 to 98,092 filings in 1981. The superior court was able to increase the total number of terminations 2.5% from 94,618 cases in 1980 to 96,981 cases in 1981. The increase in terminations coupled with the decrease in filings resulted in a year-end pending caseload increase of only 2.4%, going from 94,596 matters in 1980 to 96,890 matters in 1981. These figures do not take into account the various pre- and post-judgment matters which are also processed by the superior court and are reported on page 43.

As mentioned previously, 1981 is the fourth year in which superior court caseload statistics have been collected in their current form. Therefore, short-term trends, such as those illustrated in the bar graphs, can be identified. Filings increased markedly during the first three years, but have stabilized between 1980 and 1981. Nevertheless, the 1981 total filing figure of 98,092 cases represents a 14.5% growth in filing activity over the four-year period. There has also been a 19.3% rise in the overall number of terminations in the four years from 81,322 terminations in 1978 to 96,981 terminations in 1981. Year-end pending counts have increased significantly during the same time period rising from 88,076 in 1978 to 96,890 in 1981, a 10% increase. It should be noted that during this time period only five new judgeships were created in the state, an increase of just 6.6% in the available judicial workforce.

The most significant change in terms of overall case volume was in the area of civil case filings. There was a 4.5% decrease in civil filings, dropping from 36,830 matters in 1980 to 35,162 matters in 1981. The court was able to terminate a total of 35,750 cases in 1981 which was a 3.8% increase over the 34,452 cases closed in 1980. As a result of the decrease in total filings and the increase in terminations, the year-end pending caseload increased only slightly, 0.3%, from 35,237 cases in 1980 to 35,329 in 1981.

Statewide statistics reflect a 2.2% growth in criminal filings during 1981 as compared with 1980 (15,865 filings in 1980 versus 16,219 filings in 1981). Concurrently, the number of terminations surged from 14,490 cases in 1980 to 17,313 cases in 1981, an increase of 19.5%. This significant increase in ter-

SUPERIOR COURT ACTIVITY

minations resulted in a substantial drop, 10.7%, in pending matters at year-end (8,250 cases pending at the end of 1980 versus 7,366 cases pending at the end of 1981).

In 1981, domestic relations case filings remained almost constant, increasing 0.4% over the previous year (27,899 filings in 1980 compared to 28,023 filings in 1981). Terminations increased 2.7% from 26,794 matters in 1980 to 27,524 matters in 1981. Despite the increase in terminations, the year-end pending count grew at a rate of 4.8% over the previous year.

Reciprocal support filings increased from 7,537 matters in 1980 to 7,848 matters in 1981, which reflects a 4.1% growth. However, there was a major decrease in the number of reciprocal support cases terminated during the year. A total of 7,424 matters were closed in 1981 which is a 25% decrease over the 9,904 matters closed in 1980. The year-end pending count partially mirrored this decrease in terminations by increasing 7% from 7,822 matters pending in 1980 to 8,372 matters pending in 1981.

Due to the length of their processing time, probate matters continued to increase in the year-end pending category from 26,820 matters in 1980 to 28,288 matters in 1981 (a 5.5% increase). Total terminations accounted for only 7,112 matters during the year. Thus, there were nearly four probate cases pending for every case terminated during the year.

The superior court in Arizona handled a widely diverse caseload during 1981. As shown in the pie chart, the largest category of cases filed with the court were civil matters which represent over one-third of all cases filed. Domestic relations matters constitute the second largest case category with 28.6% of the total caseload. Criminal matters comprised 16.5% of the filings, while the remaining types of cases represent the final 19.1% of case filings in the court.

Caseload Statistical Definitions

The following definitions are included to afford the reader a better understanding of what the statistical data reported represents. Civil, domestic relations and all other non-criminal statistics reflect the number of cases. Criminal statistics reflect the number of defendants named in complaints, informations, and/or indictments.

Case Categories

CIVIL - Tort Motor Vehicle, Tort Non-Motor, Medical Malpractice, Contract, Eminent Domain, Lower Court Civil Appeals, and Non-Classified Civil cases.

DOMESTIC RELATIONS - Paternity, Maternity, Dissolution, Annulment, Legal Separation, County Attorney Petitions to Establish Support, and other custody proceedings.

PROBATE - Estate Probate, Trust Administration, Guardianship, and Conservatorship cases.

ADOPTION - Petitions for the adoption of a minor.

JUVENILE DEPENDENCY - Petitions to declare a juvenile to be a dependent or neglected child.

FELONY - Defendants in criminal cases who are charged with a felony. Criminal statistics in this report represent numbers of defendants, not cases.

MISDEMEANOR - Defendants in criminal cases who are charged with a misdemeanor offense.

UNCLASSIFIED - Defendants in criminal cases who are charged with an offense which does not come under any of the other criminal case categories listed, e.g., peace bond complaints.

LOWER COURT APPEAL - The number of civil cases appealed, or defendants in criminal cases who appeal a decision rendered in a city court or a justice of the peace court.

TRIAL DE NOVO - A new trial as a result of a lower court appeal in which the entire case is retried.

ON THE RECORD - An appeal of a lower court decision, in which legal issues are reviewed by inspection and examination of the record of the lower court proceedings.

Case Activity

CASES TRANSFERRED IN - The number of cases (defendants in criminal cases) transferred in from the superior court in another county. Cases in which a motion for new trial has been granted or a remand from an appellate court has been ordered are also included in this category, as well as statistical adjustments to correct discovered inaccuracies.

WITH PLEA - The number of defendants in criminal cases who enter a plea of guilty or *nolo contendere* prior to the commencement of a trial.

TRIAL IN PROCESS - The number of cases (defendants in criminal cases) terminated during, but prior to the completion of, a trial. For purposes of this report, a trial commences when the first witness is sworn.

COURT TRIAL - The number of cases (defendants in criminal cases) terminated following the completion of a trial without a jury.

JURY TRIAL - The number of cases (defendants in criminal cases) terminated following the completion of a jury trial.

AFFIRMED - Superior court ruling on a lower court appeal on the record in which the decision of the lower court is upheld.

REVERSED - Superior court ruling on a lower court appeal on the record in which the decision of the lower court is reversed.

ARBITRATION - The number of civil cases terminated by arbitration, pursuant to Arizona Revised Statutes §12-133. Arbitration cases that are appealed to the superior court are not included in this termination category.

MEDICAL MALPRACTICE PANELS - The number of civil medical malpractice cases concluded by medical liability review panels. Cases in which the parties proceed with court litigation are not included in this category.

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed survey obtained from the superior court in each county. Statewide superior court summary information is contained in two tables which appear on the following pages. The tables separate actual expenditures made during fiscal year 1980-81 from the budgeted amounts appropriated for courts for fiscal year 1981-82. An effort was made to present fiscal information on the superior court itself, the clerk of the court, adult probation, and juvenile probation as separate financial units. In those counties which do not have separate adult and juvenile probation departments, the figures for the combined probation departments have been included under the adult probation heading.

Included in the General Introduction on page 5 is a brief explanation regarding the overall financial information contained in the report and definitions as to what the financial categories presented include. Particular attention should be paid to footnotes applicable to the financial information presented.

PERSONNEL INFORMATION

The personnel information presented is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1981.

As a result of the variety and number of job titles encountered in compiling this information, general position groupings were developed. In seven counties, adult and juvenile probation services are combined in a single probation department. In these instances, all related personnel are reported under Adult Probation. In the following personnel summary charts, full-time positions are referred to as F.T. and part-time as P.T.

The general position groupings which were developed for summarizing all superior court positions are as follows:

Superior Court Probation

The information contained in this section of the annual report is based on monthly reports submitted by superior court probation departments to the Arizona Supreme Court. Adult and juvenile probation statistics are provided on an individual court basis.

PROBATION ACTIVITY, 1981

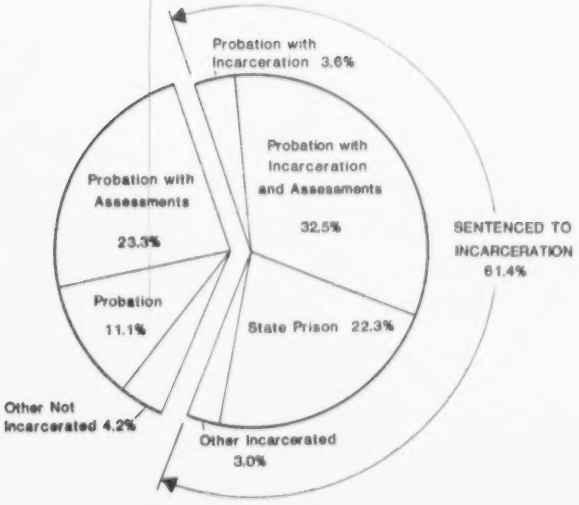
Adult

During 1981, a total of 9,932 adults were referred to probation departments for presentence contact. This represents a 20.8% increase over the 8,219 offenders referred during 1980. A similar increase, 19%, occurred in the number of new offenders placed on supervised probation by the superior court, 5,888 in 1980 and 7,009 in 1981. The most dramatic increases in the latter category occurred in Santa Cruz (267%), Gila (50%), and Maricopa (34%) Superior Courts.

As illustrated in the pie chart, 61.4% of those offenders referred to the probation department prior to sentencing during 1981 received a sentence requiring incarceration. This is an increase of almost 13% over the previous year. Some 36% of these individuals were incarcerated as a condition of probation.

The state prison portion of the pie chart reflects 2,205 adult offenders who were sent to prison and six individuals sentenced to death.

SENTENCES OF ADULTS
REFERRED TO PROBATION DEPARTMENTS
PRIOR TO SENTENCING



During 1981, a total of 18,838 adults were supervised by probation departments. Each year a greater percentage of these individuals are being required to provide financial assessments or public work service as a condition of probation. During 1981 in excess of $2,187,000 was provided to the community in restitution, reimbursement, fines, and fees. This figure includes $51,678 in probation fees provided by offenders placed on probation after July 25, 1981 pursuant to A.R.S. §13-901. Even when the probation fees are deducted from the total figure, there is a 36.7% increase over the amount of restitution, reimbursement, and fines collected during the previous year. In addition, 56,499 hours of public work service were provided by probationers, an increase of 46.3% over the 1980 figure. Only 4.4% of the total probationers supervised during the year had all grants of probation revoked.

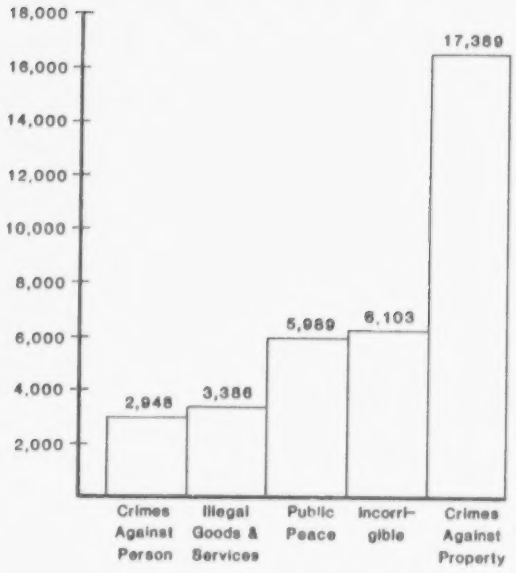
Sentencing statistics are provided to the Supreme Court by both the probation department and the superior court in each county. These two sets of figures do not coincide. Some of the variance is related to the fact that the probation department keeps sentencing statistics only on those individuals who are referred to the probation department prior to sentencing. Since not all defendants who are sentenced by the superior court are referred to the probation department prior to sentencing, the number of offenders actually sentenced may be greater than the number reported by the probation department. Another factor contributing to the variance may be the inability of the reporting entities to count the dispositions in accordance with Supreme Court instructions. The latter situation will be addressed during 1982.

It should be noted that the Pima County Adult Probation Department provides probation services on a contractual basis to the Tucson Municipal Court and limited services to the Pima County Consolidated Justice Courts. On December 31, 1981, this lower court probation caseload consisted of 799 persons. A total of 217 presentence reports were provided to the municipal and justice courts during 1981. Since the Pima County Adult Probation Department is the only department in the state which reports statistical information for the municipal and justice courts, this information has **not** been included in the statistical charts.

Juvenile

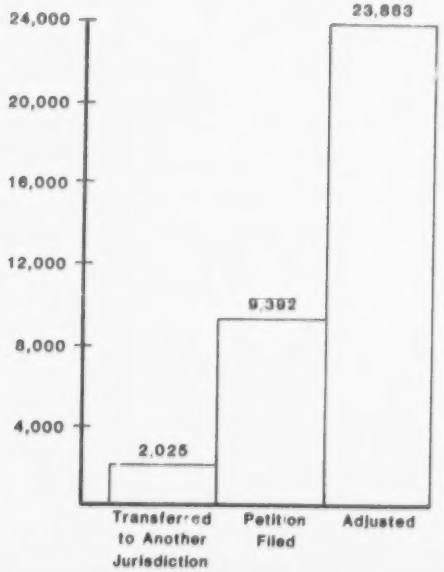
During 1981 the juvenile probation department received a total of 35,815 referrals on juveniles alleged to be delinquent or incorrigible. This 1981 total does not include referrals for minor traffic offenses. The first bar chart shows that most juvenile referrals (49%) were for crimes against property.

JUVENILE REFERRALS FILED LISTED BY MOST SERIOUS OFFENSE



The second bar chart reflects action taken on the 35,300 referrals processed by the juvenile court during the year. The majority of the referrals, 67.7%, were adjusted by the court. When a case is adjusted, counseling and other support services are often provided to the juveniles and their parents through the probation department. Of the remaining cases, 26.6% resulted in a petition being filed and 5.7% were transferred to another court.

ACTION ON JUVENILE REFERRALS DURING 1981



As a result of the referrals which ended in petitions being filed, 5,706 children received one of the following dispositions from the court: probation (46%); probation with a special condition that monetary restitution be provided (12%); continuation on an existing grant of probation (17%); commitment to the State Department of Corrections (11%); or a disposition that did not involve probation or confinement (14%).

On December 31, 1981, the juvenile probation departments in the state were supervising 3,365 juveniles on probation to the court. Based on the figures reported, this is a reduction of 2.2% (75 juveniles) between January 1, 1981 and December 31, 1981.

During 1981, 6,575 juveniles were admitted to detention for an alleged delinquent act; of these, approximately 15% (980) were held for 11 days or more prior to their adjudication. Also during 1981, 1,761 juveniles were admitted to detention for an alleged incorrigible act, and 4% (77) of these juveniles were held for 11 days or more prior to adjudication.

Juveniles supervised by probation departments during 1981 provided $242,582 in restitution, reimbursement, and penalties. This is a 23.4% increase over the amount collected during 1980. The number of hours of public work service provided by juveniles increased by 56.7%, rising from 18,825 hours in 1980 to 29,499 hours in 1981.

DEFINITION OF TERMS

Adult

SUPERVISED PROBATION - A grant of probation provided pursuant to the provisions of A.R.S. §13-901 which results in the offender being supervised by the probation department.

PRESENTENCE REPORT - Written report prepared by a probation officer and submitted to the court as a sentencing aid.

EARLY TERMINATION - Termination from probation prior to the original date set by the court.

FULL-TERM DISCHARGE - Termination from probation on the date originally set by the court.

REVOKED - Termination of probation upon a finding that a condition of probation was violated; the offender's sentence may be imposed or a new grant of probation may be provided.

COURTESY SUPERVISION - Supervision of offenders on an in-county basis as a courtesy to another county's probation department.

ASSESSMENTS - Restitution, reimbursement, fines, probation fees and/or public work service ordered by the court.

Juvenile

REFERRAL - A written notice of an alleged delinquent or incorrigible act or acts committed by a juvenile and filed with the juvenile court

DELINQUENT ACT - An act committed by a child which if committed by an adult would be a criminal offense

INCORRIGIBLE ACT - An act committed by a child which is only an offense when committed by a minor, this includes certain liquor law violations not considered to be delinquent acts

ADJUSTMENT - The handling of a juvenile referral or complaint in a manner which eliminates the necessity of filing a petition

TRANSFER TO ANOTHER JURISDICTION - Referrals or petitions which have been transferred to another jurisdiction for adjustment, adjudication, or disposition pursuant to the provisions of Rule 12 Supreme Court Rules of Procedure for the Juvenile Court

PETITION - The formal initiation of court action to determine if a juvenile is delinquent or incorrigible as defined in Rule 4, Supreme Court Rules of Procedure for the Juvenile Court

DISMISSAL - Petitions dismissed prior to and during the adjudication process

ADJUDICATION - A process through which the court determines whether the allegations contained in a petition are true

DISPOSITION - Court imposition of the appropriate placement or penalty on a juvenile found to be delinquent or incorrigible

PREDISPOSITION REPORT - Sociological report prepared by the juvenile probation department subsequent to a finding that a juvenile is either delinquent or incorrigible

TERMINATED WITHOUT SERVICES - The disposition entered when a finding has been made that a juvenile is delinquent or incorrigible but the court determines that placement or penalty is not appropriate

CASELOAD STATISTICS

General

The caseload statistics contained in this section of the report are based on the monthly statistical reports submitted to the Supreme Court by the justice courts. In July there were two major changes in the statistical reports, each resulting from legislative changes.

The small claims divisions of the justice courts, which were authorized by the Thirty-Fourth Legislature, became effective in July, 1981. Consequently, the Supreme Court statistical reporting forms were revised to reflect activity in this new category. During the first six months of operation, 1,419 small claims cases were terminated by the justice courts. This figure is likely to increase during 1982 as the public becomes more familar with this method of resolving claims involving $500 or less.

The second major change in the statistical reporting forms was precipitated by a change in the method of determining salaries for justices of the peace (A.R.S. §22-125). The new legislation provides that the judges' salaries be paid on the basis of productivity credits which are derived from the number of new case filings in the court as compiled by the Supreme Court. Different categories of cases are assigned different productivity credit points. For example, ten driving while intoxicated (DWI) filings are worth one productivity credit, while sixty speeding citations equal one productivity credit. As a result of the legislation, the Supreme Court changed the statistical reporting forms in July 1981 to reflect "filings" rather than "defendants" in traffic and criminal cases. Therefore, the statistics reported here are a combination of counting "defendants" for the first six months of the year and "filings" for the second half of the year.

When the report forms were revised in July 1981, certain preliminary hearing termination categories were deleted to ease the completion of the report forms. These deletions are reflected in this report.

During 1981, two courts did not report complete statistics for the year, and thus the statewide totals reported hereafter do not include figures for the months of October, November, and December in Glendale Precinct and for November and Decembe in South Phoenix Precinct. Two new precincts were added this year, Coconino East Precinct in Flagstaff, and Pima No. 6 in the Tucson consolidated justice courts.

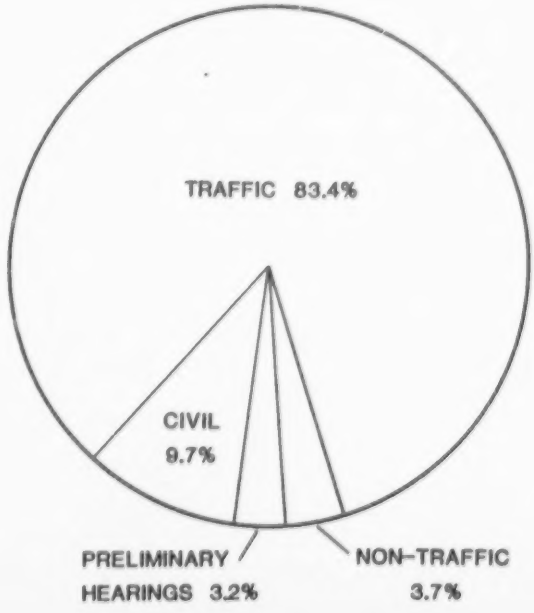
The monthly statistical report forms and caseload statistical tables in this report include categories entitled "transferred in" and "transferred out." Although these categories are included primarily to report the actual transfer of cases or defendants from one court to another, the categories may also be employed to make statistical adjustments of discovered reporting inaccuracies. Such inaccuracies are usually detected either during physical inventories of pending caseloads by court personnel or by staff of the Administrative Director's office during routine monitoring of the monthly reports.

In most instances where physical inventory adjustments have been made, the adjustments have been published in the same form as they were reported to this office and footnoted appropriately. For some courts, physical inventories of pending caseloads resulted in statistical adjustments being made in both the transferred in and transferred out categories within the same case category. Where possible, such adjustments have been offset against each other, with the offsetting difference reported either as transferred in or transferred out.

1981 Caseload Activity

During 1981, overall case filings grew at a rate of 15.6% from a total of 496,528 filings in 1980 to 573,830 filings in the recently completed year. Terminations increased similarly rising from 455,993 closures in 1980 to 540,380 closures in 1981, an 18.5% increase. As a result of the considerable growth of reported filings, the total number of cases pending at the end of the year increased 24.7%, going from 193,776 cases pending January 1, 1980 to 241,574 cases pending at the end of 1981.

Justice of the Peace Court Filings 1981



As shown in the pie chart the great majority of filings (83.4%) in justice courts relate to defendants in misdemeanor traffic complaints. Civil cases comprise 9.7% of the filings in the court while preliminary hearing (3.2%) and non-traffic misdemeanor cases (3.7%) constitute the remainder of the filings.

Traffic matters showed a considerable increase during 1981. Traffic filings increased 17.3% from 407,987 filings in 1980 to 478,678 filings in 1981. Traffic terminations also increased statewide in 1981 surging to 453,960 dispositions which was an increase of 22.5% over the 370,615 dispositions reported in 1980. Pending statistics for traffic cases rose 25% from 148,290 cases on January 1, 1981 to 185,414 cases on December 31, 1981. Of the total number of traffic defendants with cases pending at the end of 1981, 53,135 were reported to be pending with warrants issued.

In 1981 statewide justice court civil filings totaled 55,692, an increase of 5.1% over the 1980 reported filing level of 52,979. Civil dispositions changed slightly from the previous year rising from 47,750 terminations in 1980 to 49,418 terminations in 1981, or an increase of 3.5%. The pending civil caseload at the end of 1981 reflected an increase of 23.9% over the beginning of the year (31,066 pending on January 1, 1981 as compared to 38,500 pending on December 31, 1981).

Non traffic misdemeanor filings grew at a rate of 20.2% during the year. However, terminations decreased 6.7% from 20,491 closures in 1980 to 19,123 closures in 1981. As a result, the year-end pending backlog of cases increased a dramatic 25.3% from 9,410 on January 1, 1981 to 11,789 matters on December 31, 1981. Of the total number of non-traffic misdemeanor defendants reported pending at the end of 1981, 3,345 were reported as pending with warrants issued.

In Arizona preliminary hearings for felony defendants are usually held in the justice courts. The number of defendants with felony complaints filed statewide in 1981 increased 2.1% from 18,098 filings in 1980 to 18,477 filings in 1981. Terminations of these matters increased from 17,137 closures in 1980 to 17,879 closures in 1981, or an increase of 4.3%. Cases pending at year-end increased 17.2% going from 5,010 matters on January 1, 1981 to 5,871 matters on December 31, 1981. Of the cases pending at year-end, 3,947 (67%) represent cases with an outstanding warrant.

Caseload Statistical Definitions

The following definitions are included to provide the reader with a better understanding of what the caseload statistical data represents. Civil statistics reflect the number of cases for the entire year. Traffic and non traffic misdemeanor figures and preliminary hearing figures represent the number of defendants named in complaints for the first half of 1980 and the number of case filings for the second half of the year.

Case Categories

CIVIL - A lawsuit in which the claim is less than $2,500. Also included are forcible entry and detainer actions (recovery of leased or rented property) providing the rental value does not exceed $500 per month and damages sought are less than $1,000.

MISDEMEANOR—TRAFFIC - Includes traffic violations contained in Title 28 of the Arizona Revised Statutes including driving while intoxicated, reckless driving, and other moving violations. Traffic statistics also include all violations of Arizona Corporation Commission Motor Carrier Rules and Regulations.

MISDEMEANOR—NON-TRAFFIC - All other misdemeanors where the law provides for punishment that does not exceed six months incarceration and/or a fine of up to $1,000.

PRELIMINARY HEARINGS - A hearing to determine whether the defendant should be held for trial in the superior court on a felony complaint.

Case Activity

TRANSFERRED IN - The number of cases transferred in from other justice of the peace precincts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

TRANSFERRED OUT - The number of cases transferred out to other precincts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

WITHOUT TRIAL - The number of cases terminated without a trial including dismissals by the judge, summary judgments, and dismissals by the plaintiff or by stipulation of the parties involved.

PLEA AND/OR BOND FORFEITURE - The number of cases terminated after the acceptance of a guilty or no contest plea to the original charge, and the number of defendants who forfeit a posted bond.

OUT OF JURISDICTION - For statistical reporting purposes only, includes the number of cases in which defendants are believed to be physically outside the court's jurisdiction and no arrest warrant has been issued.

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed financial survey obtained from the justice courts. Statewide justice court summary information is contained in the financial table; it separates actual expenditures made during fiscal year 1980-81 from the budgets appropriated for the courts for fiscal year 1981-82.

Included in the General Introduction on page 5 is a brief explanation related to the overall financial information contained in the report and definitions as to what the financial categories presented include.

PERSONNEL INFORMATION

The personnel information presented here is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1981.

As a result of the variety and number of job titles encountered in compiling this information, the following general position groupings have been established for purposes of this report:

Judge
Constable
Administrative Staff
Support Staff
Secretarial/Clerical

Since little, if any, statewide uniformity appears to exist in regard to position titles and corresponding work related responsibilities, for purposes of this report positions have been grouped together solely on the basis of position titles.

The following position titles are included in the "Administrative Staff" position grouping:

Administrative Assistant
Courts Administrator
Principal Administrative Assistant

The following position titles are included under the "Support Staff" category:

Accountant
Court Reporter
Custodian
Interpreter
Janitor
Office Manager
Office Supervisor
Probation Officer
Process Server

The following position titles are included under the "Secretarial/Clerical" category:

Account Clerk
Accounting Aide
Bookkeeper
Chief Clerk
Civil Clerk
Clerical Aide
Clerk
Clerk Interpreter
Clerk/Typist
Court Clerk
Criminal Clerk
Data Entry Operator
Deputy Clerk
Intermediate Clerk
Judicial Secretary
Justice Court Clerk
Principal Clerk
Records Clerk
Secretary
Senior Clerk
Small Claims Clerk
Traffic Clerk
Typist
Utility Clerk
Vehicular Clerk

Municipal Courts

CASELOAD STATISTICS

General

The caseload statistics contained on the following pages are based on the monthly statistical reports submitted to the Supreme Court by the municipal courts. This is the fourth year that municipal court statistics have been available on a statewide basis to the Supreme Court. As happened in the justice courts, significant changes were made in the municipal court statistical reporting system in July 1981. To make all lower courts in the state statistically compatible the reports were changed to reflect "case filings" rather than "defendants" in traffic and misdemeanor matters. Additionally, there are many jurisdictions within the state in which the justice and municipal courts share both judge and staff. The compatibility of the lower court statistical system is particularly beneficial to these jurisdictions in that similar procedures can be applied in gathering the statistical information for both courts. As a result of the change, municipal statistics reflect a mixture of "defendants" for the first half of the year and "case filings" for the year's second half.

Both the monthly statistical reporting forms and the caseload statistical tables in this report include categories entitled "transferred in" and "transferred out". Although these categories are included primarily to report the actual transfer of cases or defendants between courts, the categories may also be employed to make statistical adjustments of discovered reporting inaccuracies. Such inaccuracies are usually detected either during physical inventories of pending caseloads by court personnel or by staff of the Administrative Director's office during routine monitoring of the monthly reports.

In most instances where physical inventory adjustments have been made, the adjustments have been reported to this office and footnoted appropriately. For some courts, physical inventories of pending caseloads resulted in statistical adjustments being made in both the transferred in and transferred out categories within the same case category. Where possible, such adjustments have been offset against each other; with the offsetting difference reported either as transferred in or transferred out.

1981 Caseload Activity

Statewide in 1981, there were a reported 751,554 filings in the municipal courts. This figure represents an increase of 1.9% over the 737,722 filings in 1980. Municipal court terminations increased more significantly during the year rising 5.2% from 657,362 in 1980 to 691,797 terminations in 1981. At the end of 1981, there were 381,156 cases pending statewide which represents an increase of 19.6% from the 318,801 cases pending at the end of 1980. This sizable increase in pending matters is partially caused by the increase in failure to appear cases which remained pending at year-end.

Traffic filings increased from 657,866 matters filed in 1980 to 660,147 in 1981 (a 0.3% rise). Terminations increased at a rate of 4.4% rising from 592,769 terminations in 1980 to 619,135 terminations in 1981. The number of cases pending at the end of 1981 (303,220) reflected a 16.5% increase over the total number of pending matters at the beginning of the year (260,222). In 1981, of the 303,220 traffic cases reported pending at the end of the year, 94,573 were reported as pending with warrants issued. This is a 27.5% increase in cases pending with warrants issued. This trend should be watched carefully in future years. If the trend continues and the warrants in question have been outstanding for a long period of time, it may point to growing public disrespect for law and the courts.

Like traffic cases, non-traffic misdemeanor filings reported a 14.5% increase over the previous year. In 1980 a total of 79,856 filings were received in municipal courts compared with 91,407 filings in 1981. Terminations similarly increased from 64,593 in 1980 to 72,662 terminations in 1981, a 12.5% rise. The year-end pending count for non-traffic misdemeanors reflected a 32.3% increase in cases growing from 58,887 at the beginning of the year to 77,936 on December 31, 1981. There were 23,841 non-traffic misdemeanor defendants with warrants issued included in the 77,936 defendants pending at the end of 1981.

Caseload Statistical Definitions

The following statistical definitions are included to provide a better understanding of what the caseload data reported represents. The statistical data reflects the number of defendants named in complaints for the first six months of 1981 and the number of case filings for the remainder of the year.

Case Categories

MISDEMEANOR—TRAFFIC - Includes traffic violations contained in Title 28 of the Arizona Revised Statutes, including driving while intoxicated, reckless driving while intoxicated, reckless driving, and other moving violations. Also included are violations of Arizona Corporation Commission Motor Carrier Rules and Regulations.

MISDEMEANOR—NON-TRAFFIC - All other misdemeanors where the law provides for punishment that does not exceed six months' incarceration and/or a fine of up to $1,000.

Case Activity

TRANSFERRED IN - The number of cases transferred in from other municipal courts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

TRANSFERRED OUT - The number of cases transferred out to other municipal courts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

PLEA AND/OR BOND FORFEITURE - The number of cases terminated after the acceptance of a guilty or a no contest plea to original charge, and the number of defendants who forfeit a posted bond.

OUT OF JURISDICTION - For statistical reporting purposes only, includes the number of cases in which defendants are believed to be physically outside the court's jurisdiction and no arrest warrant has been issued.

FINANCIAL INFORMATION

The municipal courts' financial information has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget figures were available.

PERSONNEL INFORMATION

The personnel information presented herein is based on responses to a personnel survey conducted by the Arizona Supreme Court.

Due to the vast number and variety of position titles that exist within the municipal courts statewide, the following general position groupings have been established for purposes of this report:

Judge
Administrative Staff
Secretarial/Clerical
Support Staff

Since there is no statewide uniformity in regard to position titles and corresponding job-related responsibilities, for purposes of this report positions have been grouped together solely on the basis of position titles. The following definitions detail what positions are included in each grouping.

The "Judge" position grouping includes all judicial titles such as:

Assistant Magistrate
Associate Magistrate
Chief Magistrate
Chief Presiding City Judge
Deputy Judge
Deputy Magistrate
Judge
Magistrate

The "Admistrative Staff" position grouping includes the following titles:

Administrative Assistant
Clerk of Court
Court Administrative Officer
Court Administrator
Deputy Magistrate/Court Clerk
Judicial Administrator

The "Support Staff" position grouping includes the following titles:

Accountant
Account Clerk Supervisor
Alcohol Therapist
Assistant City Attorney
Bailiff
Bailiff/Translator
Court Clerk Supervisor
Court Services Supervisor
D.W.I. Rehabilitation Supervisor
Lead Bailiff
M.I.S. Coordinator
Office Manager
Office Supervisor
P.A.C.T. Case Coordinator
Probation Officer
Probation Services Supervisor
Systems and Procedures Analyst

The "Secretarial/Clerical" position grouping includes the following titles:

Account Clerk
Administrative Secretary
Assistant Court Clerk
Cashier
Chief Clerk
Chief Deputy Clerk
Clerk
Clerk Steno
Clerk/Typist
Cooperative Office Education Clerk
Court Clerk
Court Services Worker
Customer Services Clerk
Deputy Clerk

Court Receipts

The following section lists the total amount of fines, fees, forfeitures and surcharges reported as collected by the various courts throughout the State of Arizona during fiscal year 1980-81. The amounts reported are unaudited.

Appellate court revenues consist primarily of filing fees. Fees are collected by the Supreme Court pursuant to Arizona Revised Statutes §§12-321 and 12-120.32 and by the Court of Appeals pursuant to A.R.S. §12-120.31. The Supreme Court also collects fees as authorized under A.R.S. §12-323 for lawyer admission certificates to the State Bar and for certified copies of records.

The Superior Court is authorized under A.R.S. §§12-311 through -313 to assess various fees for civil actions taken, and pursuant to A.R.S. §§13-801 to -804 to collect criminal fines imposed by the courts. The clerk of the superior court is charged in A.R.S. §11-554 with the duty of collecting fees for the court and other related actions (marriage licenses, filing of papers, etc.). Additionally, A.R.S. §§25-303 and -311.01 charge the clerk with the collection of fees for annulment and dissolution of marriage filings and, A.R.S. § 22-283 provides for fees for civil appeals from justice courts. In several counties the probation department collects graduated fines and submits such amounts to the clerk of the superior court.

Justices of the peace are empowered by A.R.S. §22-112 to set bail for traffic offenses and under A.R.S. §§22-281 and -282, to collect fees for civil actions in their court. Fees for small claims filings in justice courts are set by A.R.S. §22-522. Constables are entitled to collect fees in civil actions for serving summonses, levying and returning writs of attachment, and other services as provided by A.R.S. §11-445. A.R.S. §13-807 provides that all such amounts collected be remitted to the county treasurer.

Municipal courts, pursuant to A.R.S. §22-424, may set bail for traffic offenses. Fines collected by municipal courts are remitted to the local municipality.

In addition to the courts' authority to collect the fines and fees noted above, the state legislature has mandated that surcharges be imposed for particular offenses to support special programs. The Peace Officers Training Fund (A.R.S. §§41-1825 and -1826) is supported by a 10% surcharge which is added to fines for all criminal convictions including violations of the Uniform Narcotic Drug Act, the Criminal Code Title 13, Motor Vehicle Code Title 28, Game and Fish Title 17, and municipal motor vehicle ordinances. The minimum surcharge assessed in each fine is set at $2. The Prosecuting Attorneys' Advisory Council Training Fund is supported by a 2% surcharge on all criminal offenses as provided by A.R.S. §41-1830.04. The minimum surcharge which can be assessed is $1. A.R.S. §36-142 prescribes that driving while intoxicated and Uniform Narcotic Drug Act convictions shall also be assessed an additional 15% surcharge for operation of drug and alcohol abuse programs by the Department of Health Services.

All surcharges, by statute, are to be remitted to the respective county or city treasurers who in turn forward the funds to the state treasurer.
